Larry Giuliani
CornerStone Security

Dear Mr. Giuliani,

I wanted to take time out to tell you how great and happy we are to find a security company such as CornerStone. We had many choices but after talking to you on the telephone and getting to meet you and your team in person I knew we would feel comfortable in making a decision on who we could trust on protecting our 12 stores.

Our concerns were put to rest as soon as you put your professional personalized packet together for us. I must commend you on your efforts and time you took to make it a personable effort. You presented us with all the information from the beginning and no hidden fees and no open-ended promise's that could not be fulfilled.

Larry I feel you and your CornerStone Security staff have covered every concern and aspect of what we needed in a fast timely manner. I must also admit that your customer service is friendly and goes way beyond over the top.

We have plans to continue to use your services for every new and existing site. I must say that with you being a smaller security company we have no doubt that you can and will surpass everything we need. Thank you for your time and attention in this matter, and I look forward to doing business with you again.

Thank You
Sincerely Yours,
Christian A. Mcquown
