To Whom It May Concern:

I would like to say a word or two about Cornerstone Security Company. This is by far the best security company I have been involved with. The reason I say this is because in the past year or so I had an incident with one of my own employees who came in late at night and stole money from me. When I discussed this matter with Larry Giuliani of Cornerstone he was extremely helpful in solving this matter for the future. Cornerstone personnel are helpful, courteous and very apologetic when calling in the middle of the night (even if it is their job).

Cornerstone isn't expensive (at least in my opinion) as companies I've used in the past. The service given for the rate is wonderful. I would recommend them to anyone. I will use them for as long as I have my store.

Sincerely,

Faith V. Malick
