I just wanted to express my deep appreciation to you & to your esteemed company for the way you handled our invitation to bid on the sprinkler system & fire alarm for our project in Centennial.

While all the bidders rushed to submit an estimate for the job, you were the only one to advise us that we may not need to install sprinkler system for our project. After consulting with the South Metro Fire Rescue, they concurred with us that the sprinkler system is not required & they asked us to resubmit revised plans to eliminate it. We did & they approved it last week. We were able to save nearly \$40,000.00 by eliminating this expense

By acting like this, you have demonstrated without any doubt your integrity & professionalism in dealing with business activities whereby you advised what is right for a business venture & not seeking your own interest in securing business for your company.

I appreciate your input & I certainly would recommend CornerStone Security for future businesses.

Sincerely,

(Received by email)
